

Practical-5: Shadow and Blur effect with text tool and alignment properties

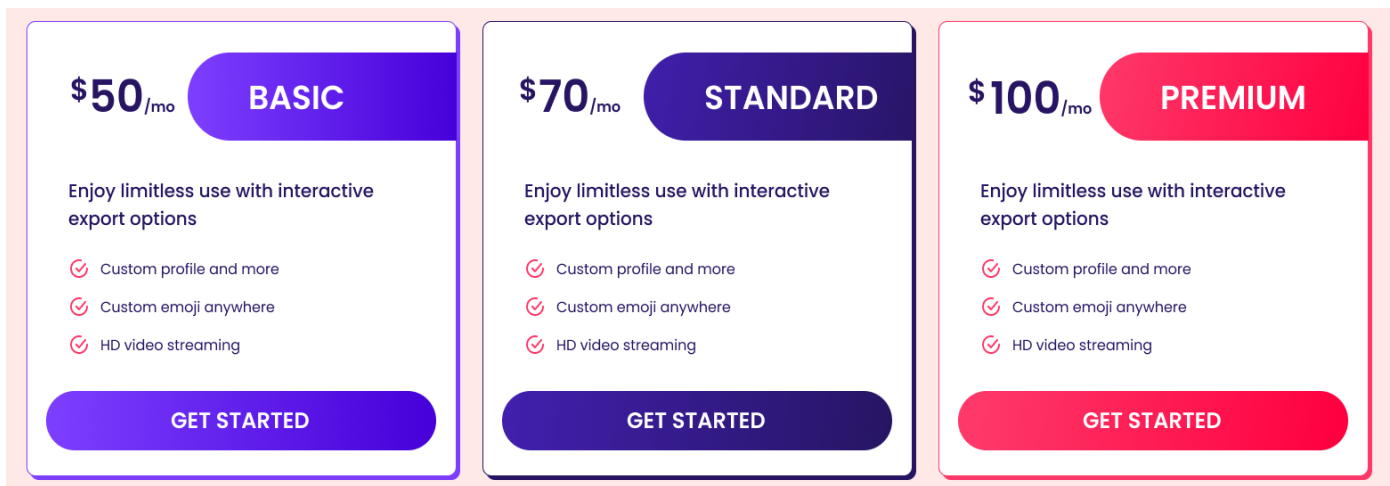

Definition: Create a blog card design and pricing card design using Alignment, & Distribution, Google & Custom Fonts, Corner Radius, Shadow, Blur Effects, Fill, & Stroke, Text Properties & Styles.

Solution:

1st Product Card

2nd Pricing Cards

Working:

- First, open Figma. Add a new Figma design file.
- Rename a file as 133_Practical-5_Cards_UI
- In this design, the following tools are used for a particular operation:

- Export your design as a PNG file.

1st Product Cards

Tools Name	Use	Properties
Frame Tool (F)	Used as the card container for each shoe product.	Size: 300×380px Corner radius: ~16-24px Fill: White (for card) Outer page background: dark grey or black
Rectangle Tool (R)	Used for the image container area at the top of the card.	Size: 280×200px Corner radius matches top corners Fill: set to "Image Fill"
Image Fill	To insert the shoe product image inside the rectangle.	Right-click rectangle → Fill → Image Fit the shoe image properly inside the rectangle
Text Tool (T)	Used for the product name e.g. "Nike Air Max 270."	Font: Bold or Semi-bold Size 16-18px Color: Dark for light cards, white for dark backgrounds
Text Tool (T)	Used for the year or subtitle below the product name.	Font: Regular Size 12-14px Color: lighter grey or lower opacity
Text Tool (T)	Used for brand name e.g. "NIKE."	Font: Regular Size 12px Color: lighter grey
Text Tool (T)	Used for price text like "₹13,995.00."	Font: Bold Size 16px Color: strong and visible
Ellipse Tool (O)	Used to create the floating circular (+) button on the right side.	Size: 40×40px Fill: dark color or brand color Place "+" icon inside
Vector/Icon Tool	Used to draw or place the "+" icon in the circle.	Color: white or matching brand color
Auto Layout (Shift + A)	Helps stack text and button neatly with equal spacing.	Vertical layout Spacing between text blocks 8-12px
Align & Distribute Tools	Used to keep the cards aligned horizontally with equal gaps.	Horizontal spacing between cards
Layer Rename	To name layers for clarity and future edits.	E.g. "Card Background," "Shoe Image," "Price Text," "Add Button."
Export Tool	To export the design for sharing or uploading.	File → Export → PNG or JPG

2nd Pricing Cards

Tools Name	Use	Properties
Frame Tool (F)	Used as the outer container for each pricing card.	Size: 320×450px Corner radius: 16px Stroke: 1-2px border in light color (e.g. #E0E0E0) Background fill: white
Rectangle Tool (R)	Used for the colored banner shapes behind the plan titles (e.g. “BASIC”, “STANDARD”, “PREMIUM”).	Size: full width of card, height 50-80px Corner radius matching card Fill colors: gradients (purple, pink, red) or solid fills
Text Tool (T)	Used for plan prices (e.g. “\$50 /mo”).	Font size 28-36px Weight: Bold or Semibold Color: dark purple or dark grey
Text Tool (T)	Used for plan names like “BASIC”, “STANDARD”, “PREMIUM”.	Font size 16-20px Weight: Bold Color: white for colored backgrounds
Text Tool (T)	Used for description like “Enjoy limitless use with interactive export options.”	Font size 12-14px Color: #4B4B4B or dark grey
Icon Tool / Vector	Used to create or place the tick/check icons beside features.	Size 16×16px Stroke or fill color: red (#FF4D6D)
Text Tool (T)	Used for feature list items like “Custom profile and more.”	Font size 12-14px Color: #4B4B4B or dark grey
Rectangle Tool (R)	Used for “GET STARTED” buttons.	Size: 260×50px Corner radius 25px Fill: gradient or solid brand color (purple, pink, etc.) Text color: white
Auto Layout (Shift + A)	Helps stack text, price, features, and buttons vertically with even spacing.	Vertical layout Spacing between elements ~12-16px
Align & Distribute Tools	Used to keep cards aligned horizontally with equal gaps between them.	Horizontal spacing between cards
Layer Rename	Helps organize the layers for easy identification.	Example names: “Pricing Card Basic,” “Price Text,” “CTA Button.”
Export Tool	Used to export your finished design as PNG or JPG.	Go to File → Export → PNG or JPG
