**Practical-2:** Figma design tools and applying properties

Definition: Develop 1 screen using the tools listed below: Blending Modes, Alignment, & Distribution, Shadow, Blur Effects, Fill, & Stroke, Text Properties & Styles.

Solution:

Working:

- First, open Figma. Add a new Figma design file.
- Rename a file as 133_Practical-1_GeometricShapes.
- In this design, the following tools are used for a particular operation:
- Export your design as a PNG file.

Tools Name	Use	Properties
Frame Tool (F)	The frame is used as a container for this mobile screen design. I created it first as	Width: 386px, Height: 791px Corner Radius: 30px on top corners for a

	my working canvas.	rounded screen look
		Color fill: #128C7E (green header background) Blend mode: Pass Through
Rectangle Tool (R)	Used to draw the white background area below the green header.	Width: 386px, Height: (remaining height)
		Color fill: #FFFFFF No stroke Rename as "Background Rectangle"
Ellipse Tool (O)	Used to create the circular profile photo placeholder under the header.	Diameter: 66px
		Color fill: #000000 (or place an image fill) No stroke Rename as "Profile Picture"
Text Tool (T)	Used to add text elements like name, designation, and all list items.	Font: e.g. Poppins or Roboto
		Font weight: Bold for headings, Regular for subtext
		Font sizes: e.g. 18px for headings, 14px for subtext Color: #000000
Line Tool (L)	Used to create the divider line below the profile section.	Width: 386px
		Stroke weight: 1px
		Color fill: #000000 Rename as "Divider Line"
Image/Icon Tool	Used for inserting icons like key, lock, avatar, chat, bell, and storage symbol beside each menu label.	Use icons from Figma Community or Material Icons. Size around 24px × 24px
		Color fill: #128C7E Rename as per icon name, e.g. "Key Icon", "Lock Icon," etc.
Align Tool	Used to align icons and text in neat rows for each setting option.	Align left edges or vertically center. Shortcut: Shift + H or Shift + V
Auto Layout (Shift + A)	Used to keep each row (icon + text) together with proper spacing between them.	Horizontal layout Spacing between icon and text: 8px to 12px Vertical spacing between rows: 16px to 24px
Layer Rename	Helps keep all layers organized and easy to identify.	Examples: "Header Rectangle," "Profile Name Text," "Privacy Icon," etc.
Export Tool	Used to save the final design as an image for submission.	Go to File → Export → JPG or PNG Choose desired resolution and quality
